

**June 17th, 2021**

To whom it may concern,

Dear Sir/Madam,

**RECOMMENDATION LETTER – MR KWABENA AMPAH**

It is my understanding that Kwabena Ampah is submitting the Australian **Global Talent Expression of Interest Form**.

Kwabena Ampah graduated from the University of Cape Coast and pursued an undergraduate degree in computer science in July 2018. I have known Kwabena for the past 4 years as he has taken courses which I teach. As his lecturer, I have had an opportunity to observe his participation and interaction in class and to evaluate his knowledge of the subject matter. I would rate his overall performance as average.

I find Kwabena to be intelligent and hardworking. He is rated very well for his intellectual ability. He has very high motivation with bright academic prospects. He is well organized and has demonstrated the ability to work either independently or in teams with great creativity and enthusiasm. Kwabena is a member of the University of Cape Coast German Club and enjoys studying the German language as an extra curriculum activity. He loves to take on challenging task and is never relaxed until the problem is solved. He is open minded and can express himself clearly in English both spoken and written.

Based upon his academic performance and my understanding of the programme for which he is applying, I believe he would perform. I recommend him and wish him the very best in all future endeavors.

Best Regards,

Elliot K. Attipoe

(Lecturer)
